Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. The most recent month-end performance may be obtained by visiting our website at www.chaseinv.com. The funds impose a 2.00% redemption fee on shares held less than 60 days. Performance data does not reflect the redemption fee. If reflected, total returns would be reduced.

*** For the period ended 6/30/08, Lipper shows CHAIX to be the #60 fund in the Large Cap Growth Fund universe for one year (756 funds) based on total fund returns.**

On 6/30/08 equities were 96.6%.

While the Fund's P/E ratio is 0.83x of the Russell 1000 Growth Index's, its five-year earnings growth rate is 1.08x greater.

** The price/earnings ratio (P/E) is the price of a stock divided by its earnings per share. P/E is based on the Adviser's estimates for 2008 earnings with June 30, 2008 prices. Five-year compounded growth rates are through December 31, 2007. The S&P 500 Index tracks the stocks of 500 U.S. Companies. The Russell 1000 Growth Index measures the performance of the Russell 1000 companies with higher price-to-book ratios and higher forecasted growth rates. The Lipper Large Cap Growth Funds Index measures the performance of 30 of the largest funds in the large cap growth category as tracked by Lipper, Inc. You cannot invest directly in an index. Lipper Analytical Services, Inc. rankings are based on total returns, including reinvestment of dividends and capital gains for the stated period; this calculation does not include sales charges. While the fund does not charge sales loads, management fees and other expenses still apply.

The Fund may invest in foreign securities traded on U.S. exchanges, which involve greater volatility and political, economic and currency risks and differences in accounting methods. Mutual fund investing involves risk. Principal loss is possible.

The Russell 1000 Growth Index measures the performance of the Russell 1000 companies with higher price-to-book ratios and higher forecasted growth rates. Earnings Growth is the rate of growth in earnings per share from one period to another. Return on Equity is the amount, expressed as a percentage, earned on a company's common stock investment for a given period. Price earnings ratio (P/E) is the price of a stock divided by its earnings per share. Reinvestment Rate is the rate a company can grow internally without raising additional capital.
